The Honorable Board of Supervisors
County of Los Angeles

Los Angeles, California 90012

Dear Supervisors:

APPROVAL OF AGREEMENT #10-0535 WITH THE CALIFORNIA DEPARTMENT OF FOOD AND AGRICULTURE FOR THE HIGH RISK EXCLUSION PROGRAM

SUBJECT

The High Risk Pest Exclusion Program provides for the inspection of incoming shipments of agricultural commodities, such as plants, flowers, and produce, for pests and diseases, and evaluates critical pest pathways to stop potential introductions and infestations. Inspections are made at express carriers such as UPS and FedEx, nurseries, specialty markets, swap meets, and air freight terminals. Interception at these points of entry is the primary defense against the introduction and spread of exotic and quarantine pests and diseases. There is no County cost associated with this program.

IT IS RECOMMENDED THAT YOUR BOARD:

1. Approve and instruct the Agricultural Commissioner/Director of Weights and Measures to sign the accompanying agreement (#10-0535) with the California Department of Food and Agriculture (CDFA) which reimburses the County \$1,617,812.00 for one year, beginning July 1, 2010, for the work conducted by the Department of Agricultural Commissioner/Weights and Measures (ACWM) for the High Risk Pest Exclusion (HRPE) Program.
2. Authorize the Commissioner/Director to amend the contract agreement in an amount not to exceed 15 percent of the original contract, at no County Cost, subject to review and approval by County Counsel and the Chief Executive Office and notification to the Board offices.

SCOPE OF WORK
Criteria for Work Plan**

The County of Los Angeles agrees to perform high-risk inspection and enforcement activities for the California Department of Food and Agriculture (CDFA) in compliance with the requirements imposed by Chapter 573 (AB 1771), Statutes of 2000, Food and Agricultural Code Section 2282.5, identified as Exhibit A, Attachment 2, and County High-Risk Pest Exclusion Program Guidelines, identified as Exhibit A, Attachment 3, incorporated in this Scope of Work, identified as Exhibit A, Attachment 1. This agreement is inclusive of the county agreeing to inspect incoming high-risk shipments of plant material at terminals or other facilities as imposed by Division 4, Part 2, Chapter 1, Article 1, Section 6303 and Chapter 2, Article 1, Sections 6401 and 6403 of the Food and Agricultural Code incorporated in this Scope of Work, identified as Exhibit A, Attachment 4. The county will perform activities approved by the CDFA as described in the attached Estimate of High-Risk Pest Exclusion Activities, herein titled as Work Plan, Parcel Terminals, identified as Exhibit B, Attachment 1, and by this reference made a part hereof. High-risk pest exclusion activities targeted at parcel terminal facilities can be defined as follows:

Inspection work at Federal Express facilities, United Parcel Service facilities, US Postal Distribution Centers, and other parcel terminal facilities can include, but is not limited to:

1. County biologist(s) reviewing invoices for content origin/destination, checking packages for quarantine compliance, rejecting parcels that do not adhere to quarantine compliance, inspecting for high-risk pests (i.e., Imported Fire Ant, Diaprepes root weevil, and other arthropods, gastropods, and weeds).
2. Maintaining records of inspections and pest finds, issuing notices of rejection if necessary, notifying the Interior Pest Exclusion Program of the presence of any significant pest finds, etc.
3. Reviewing Pest Exclusion Advisories and relevant reports maintained on the CDFA Interior Pest Exclusion Extranet website.

Inspecting shipments of fruits, vegetables, and propagative plant material is the highest priority. Inspecting shipments of cut flowers and greenery is a lower priority. As quarantine areas and commercial channels change, county biologist(s) shall prioritize high-risk inspection activities as appropriate to meet the changing needs.

The county's biologist(s) shall determine the time of day and week the inspections are to occur. If a county finds it necessary to deviate from its approved Work Plan, said county will notify the Interior Pest Exclusion Program of any changes.

Exhibit A

The county will perform activities approved by the CDFA as described in the attached Estimate of High-Risk Pest Exclusion Activities, herein titled as Work Plan, Airfreight and Nursery, identified as Exhibit B, Attachment 1, and by this reference made a part hereof. High-risk pest exclusion activities at airfreight facilities and nurseries or nursery holding facilities can be defined as follows:

Inspection work at Air Freight Facilities can include, but is not limited to:

1. County biologist(s) reviewing invoices for content origin/destination, checking packages for quarantine compliance, rejecting parcels that do not adhere to quarantine compliance, inspecting for high-risk pests (i.e., Imported Fire Ant, Diaprepes root weevil, and other arthropods, gastropods, and weeds).

Less than 100% of all shipments may be sampled for nematodes. The decision to conduct nematode sampling on individual shipments should be based upon nematode detection history of the shipper and pest risk associated with the type(s) of plant material in the shipment.

Chapter 573, Statutes of 2000.

Food and Agricultural Code of California

2282.5. (a) The development of work plans for allocation of the funding appropriated in the Budget Act to the department for local assistance for agricultural plant and animal pest and disease prevention shall be the responsibility of the department. The department shall establish criteria for the development of the work plans and for allocating the appropriated funds.

(b) Of the amount appropriated in the Budget Act to the department for local assistance for agricultural plant and animal pest and disease prevention, five million five hundred thousand dollars (\$5,500,000) shall be utilized solely for high-risk pest exclusion activities. The work plans for the exclusion of high-risk pests shall be developed by the department with the county agricultural commissioners and in consultation with affected industry representatives. In order to determine the effectiveness of high-risk pest exclusion programs in each county, the criteria established by the department for the work plan shall include, but need not be limited to, the following:

- (1) The number of high-risk plant shipments entering each county.
- (2) The number of high-risk entry points in each county.
- (3) The number of state action quarantine pests intercepted or detected annually in each county.
- (4) The work hours expended by each county in conducting exclusion of high-risk pests.
- (5) The rate of interceptions and rejections per inspection activity.

(c) To remain eligible for funding under this section, a county shall maintain its support of ongoing operational costs of the county agricultural commissioner programs listed in subdivision (b) of Section 2282, at 1997-98 fiscal year levels.

(d) Funds allocated for high-risk pest exclusion activities pursuant to subdivision (b) may not be expended for any purpose other than the exclusion or detection of high-risk pests consistent with the work plans prescribed in subdivision (a) or scientific evaluation. Funds allocated by each county on or after September 28, 1998, shall not be allocated to other programs listed in subdivision (b) of Section 2282 until the county work plan is approved by the department consistent with the funding appropriated in the Budget Act to the department for local assistance for agricultural plant and animal pest and disease prevention for this purpose.

COUNTY HIGH RISK PEST EXCLUSION PROGRAM

ESTIMATED WORK PLAN GUIDELINES

PROGRAM DEFINITIONS

High-Risk Shipments: are those where there exists a high degree of likelihood that one or more "A" or "Q" rated plant pests will be introduced into or spread within the State by movement or entry of the shipment. "A" and "Q" rated plant pests have been determined to have potential for causing severe damage to the State's agricultural industry, natural resources, or environment, and as such any shipment likely to harbor such pests is considered high-risk. All high-risk shipments are to be inspected. Non-high-risk parcels ("Flower of the Month Club" bulbs, bare-root nursery stock from areas which do not represent a serious quarantine risk, plant materials from California origin with nursery certification, etc.) moving through a "high-risk" facility may be monitored via profiling and inspected as time allows during the premise visit. These shipments will not be included as "high-risk" shipments inspected. High-risk shipments which should be inspected include such items as cut flowers and nursery stock from quarantine areas, any plant materials in unmarked parcels, and other plant material shipments which have a historical record of "A" and "Q" rated pest interceptions.

High-Risk Pathways: those facilities where high-risk shipments are regularly or frequently intercepted. The known high-risk pathways have been listed on the Estimate of High-Risk Pest Exclusion Activities, including U.S. Postal Distribution Centers, UPS (except local), Federal Express, Air Freight, Air Freight Forwarded, Truck Referrals (008a-Gypsy Moth, 008-Plants & 008-Other), Specialty Markets, Swap Meets, Post Entry Quarantine, and "Other" pathways identified in your work plans and approved by the Department.

Shipments Inspected: Shipments physically opened and examined. This is not packages or pots inspected. A shipment is one lot of plant material sent from one shipper to one receiver via one mode of transport.

Rejections: Number of state level rejection notices written. This does not include rejections of materials for failing to meet nursery standards of cleanliness, or materials rejected for B or C rated pests. Any time a live A or Q rated pest is found in a shipment a rejection notice should be issued.

Pest Interceptions: Number of "A" and "Q" pest interceptions. When more than one pest species is found in a single shipment, each different species is to be counted as an interception. Finding more than one pest of the same species does not equate to multiple interceptions.

U.S. Post Office: Postal distribution centers formerly known as sectional centers that sort mail sealed against inspection (first-class, priority, and express mail parcels).

United Parcel Service (except local service): Facilities which process parcels shipped via overnight or expedited service versus facilities that process only parcels moving locally.

Air Freight: Air cargo shipments inspected at the airport facility or at destination (see next item).

Air Freight/Forwarded: Shipments allowed to proceed to destination or another location for inspection within the same county or to another county and under a warning hold notice (blue tag) or by compliance agreement authorization.

EXHIBIT A
ATTACHMENT 3

Truck (008a): Shipments of historically high-risk household articles from historically high-risk areas that require inspection for gypsy moth.

Truck (008-Plants & 008-Other): High-risk shipments moving to destination under quarantine hold notice. This does not include blue-tagged intrastate shipments of nursery stock inspected for glassy winged sharpshooters.

Post-Entry Quarantine Inspections: These inspections include both site and plant inspections. A shipment should be recorded when plant material is inspected.

Other: This column is to be used to estimate the workload for any high-risk pathway not already listed on the form; these may include: pet stores or aquariums, express parcel carriers, sea freight forwarded or other special focus activities approved by the Department. Special focus activities are then to be described under "Special Focus Description".

ACCOUNTING GUIDELINES

Program cost estimates for high-risk exclusion activities conducted at optimal levels are to be estimated based upon the guidelines and definitions contained within the County Agricultural Commissioners' Annual Financial Statement Procedures Manual. This cost/hour figure is to be estimated from an average of the costs/hour for Fiscal Years 1999/2000, 2000/2001 and 2001/2002. A county may choose to use their established County Auditor approved hourly rate in lieu of the three-year average. This would be the rate charged an applicant for phytosanitary or other type of certification if such a rate is established.

PROGRAM GUIDELINES

1. All inspections of high-risk terminal points are to be conducted as close to optimal service levels as is fiscally possible.
2. Optimal service level inspections are those conducted during the sort time(s) or before the last critical dispatch(s) of the facility monitored.
3. All high-risk shipments are to be inspected. Shipments not presenting a high risk that are moving through a high-risk facility may be monitored and inspected as time permits, but should not be included as a program cost or counted as a measure under this work plan.
4. A shipment is any amount of agriculturally regulated product/packages/potted plants from one specific shipper, in one shipment, sent to one specific consignee.

OPTIMAL SERVICE LEVELS FOR PEST EXCLUSION TERMINAL INSPECTION FREQUENCY

FACILITY	OPTIMUM INSPECTION FREQUENCY
U.S. Postal Distribution Center, United Parcel Service & Federal Express	Daily during sort
Air Freight	Daily when appropriate after offloading
Truck Referrals (008) & (008a)	100 % of Referrals after offloading
Specialty Markets & Swap Meets	Monthly during normal county office hours
Post-Entry Quarantine	All Referrals – Four visits/year normal office hours

FOOD AND AGRICULTURAL CODE

SECTION 6301-6306

6301. If any article is found to have been transported into this state from any other country or state, or territory or district of the United States, in violation of any provision of a quarantine that is established by the Secretary of Agriculture of the United States, the article is subject to seizure, destruction, or other disposition to the same extent and in the same manner as if the article had originated in this state and was in violation of a provision of this division.

6301.1. (a) The secretary shall adopt, by reference, by regulation, those federal quarantine regulations and any subsequent amendments in Parts 301 to 369, inclusive, of Title 7 of the Code of Federal Regulations. Civil and criminal penalties applicable to a violation of those federal quarantine regulations may be imposed by the secretary and other duly authorized plant quarantine officers in conformity with that other law.

(b) Any funds recovered by the commissioner pursuant to this section shall be deposited in the county general fund in the county in which the action is brought and shall be allocated to the commissioner to cover costs related to the enforcement of this division. Any funds recovered by the secretary pursuant to this section shall be deposited in the Department of Food and Agriculture Fund to cover costs related to the enforcement of this division.

6302. If any shipment of plants or things which is passing through any portion of the state is, or is liable to be, infested or infected with any pest, and there exists danger of dissemination of the pest while the shipment is in transit in this state, the shipment shall be placed within sealed containers which are composed of metal or other material so constructed that they are not liable to be broken or opened while in transit so as to permit the pest to escape. The containers shall not be opened while within the state.

6303. (a) It is unlawful for any person, except under written permission from a plant quarantine officer or under his specific direction, to move any lot or shipment of plants or other things to which a warning tag or notice has been affixed pursuant to this division, or to remove, alter, destroy, deface, or mutilate any such warning tag or notice.

(b) If any shipment of plants or things is allowed to transit the state or transit to a given destination county under a quarantine warning-hold notice, the shipment of plants or things shall not be diverted to another destination without the written permission of the director or the commissioner of the destination county.

(c) Diversion of a shipment as described in subdivision (b) is unlawful.

(d) If a shipment of plants or things requires a state or county plant quarantine officer to be present at the destination to supervise the unloading, inspection, or treatment of a quarantine shipment, the director or commissioner, as the case may be, may charge the shipper or receiver a service fee for the cost of the services. Service fees shall be determined based on the director or commissioner's costs for the services rendered.

6304. It is unlawful for any person to import into the state any English or Australian wild rabbit, flying fox, mongoose, or any other form of animal life which is detrimental to agriculture. Any such animal shall be refused entry and shall be immediately destroyed or shipped out of the state within 48 hours at the option and expense of the owner or bailee of the animal.

6305. It is unlawful for any person to willfully import into, or ship or transport within, the state any live insect or any pest as such, unless the shipment or transportation and subsequent use and handling is authorized prior to shipment under written permit and the regulations of the director or the United States Department of Agriculture, except the following:

(a) Honey bees of the species of *Apis mellifera*.

(b) Weeds for the purpose of identification.

(c) Beneficial or useful insects of common occurrence in the state.

(d) Insects or other organisms of public health or animal health interest, which are not plant pests, when imported, shipped, or transported by any governmental public health agency.

Any shipment which is not authorized by this section shall be immediately destroyed unless it is determined by the inspecting officer that the nature of the contents of the shipment is such that no damage can be caused to agriculture in this state through its shipment out of the state or return of the shipment to the point of origin. In such case, the shipment out of the state or the return of the shipment to point of origin shall be allowed at the expense of the owner or bailee of the shipment within the time which is specified by the inspecting officer.

6306. Unless otherwise permitted by law, any person who willfully and knowingly imports into, or who willfully and knowingly transports or ships within, this state, a Mediterranean fruit fly is guilty of a felony.

FOOD AND AGRICULTURAL CODE SECTION 6401-6405

6401. It is unlawful for any person to transport, receive, or import into the state any plant or any thing against which a quarantine has been established, or any plant, unless he does both of the following:

(a) Notifies the director or the commissioner of the county in which the plant or thing is received, of the arrival of the plant or thing immediately after its arrival.

(b) Holds the plant, or thing for immediate inspection by the director or commissioner, without unnecessarily moving it, or placing it where it may be harmful.

6402. If there is no commissioner in the county where the plant or thing is received, the person that transports, receives, or imports the plant or thing into the state shall notify the director, who shall make immediate arrangements for its inspection.

6403. The officer who makes the inspection may enter at any time into any conveyance or place within the state where the plant or thing is located to ascertain whether it is, or is liable to be, infested or infected with any pest.

6404. The secretary may enter into agreements with regulatory officials of other states and the United States Department of Agriculture to provide for the use of various pest risk mitigation measures at the place of origin of the shipment of the plants. The agreement may designate the plants or varieties of plants to which those measures are applied as being commodities that may be released upon arrival at ports of entry or terminals in this state without being held and inspected for compliance with standards and quarantine requirements.

6405. (a) Any certificate that has been altered, defaced, or improperly completed or changed is void.

(b) It shall be unlawful for any person to do any of the following:

(1) Alter, deface, or otherwise falsify or change, a certificate that is attached to any plant shipment or other thing entering the state.

(2) Use, or have in his or her possession, any certificate that has been altered, defaced, or otherwise falsified or changed.

(3) Transport, receive, or possess any plant material represented by a certificate.

(c) For purposes of this section, "certificate" means a certificate issued pursuant to a quarantine regulation.

In this instance, the contract termination shall be effective as of the date indicated on the State's notification to the Contractor.

This agreement may be suspended or cancelled without notice, at the option of the Contractor, if the Contractor or State's premises or equipment are destroyed by fire or other catastrophe, or so substantial damaged that it is impractical to continue service, or in the event the Contractor is unable to render service as a result of any action by a state agency directly impacting the Contractors ability to perform.

S:\ADMIN\HOMEPAGE\CCC\CCC-307.doc

Your Board has approved similar agreements with CDFA since 2000. Approval of the recommended actions will enable the ACWM to continue the HRPE Program to prevent the entry of exotic plant pests and diseases into Los Angeles County.

The County HRPE Program provides for the inspection of trucks carrying nursery plants and air freight terminals through which agricultural commodities, such as plants, flowers, and produce, are shipped. The Program, with the scope of work and agreement value, also provides for the inspection of sea containers, express freight facilities, specialty markets, and swap meets at which plant and produce shipments and marketing are involved. Preventing pest introductions reduces the need for pest eradication and resulting needs for new pesticide applications in Los Angeles County.

ACWM has consulted and worked collaboratively with shippers and receivers to assist in preventing the entry of exotic plant pests and diseases.

Implementation of Strategic Plan Goals

Awarding the contract meets the County's Strategic Plan Goal of Operational Effectiveness. The High Risk Pest Exclusion Program significantly reduces the risk of new pest introduction, which reduces the need for pesticide applications against new pests in the County.

FISCAL IMPACT/FINANCING

Under this agreement, CDFA will provide funding in the amount of \$1,617,812.00 for work performed by this Department for the period July 1, 2010, through June 30, 2011. Based upon the work parameters of this contract, there are no net County costs. The revenue was included in the department's Fiscal Year 2010 – 2011 Final Adopted Budget.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The contract applies to the period of July 1, 2010, through June 30, 2011.

Section 2282.5 of the Food and Agricultural Code provides annual funding for the High Risk Pest Exclusion Program. It specifies and mandates that high hazard pest exclusion inspections be enhanced first, and monies may then be available to the (10) other specified ACWM programs. These programs are Pest Detection, Pest Eradication, Pest Management Control, Pest Exclusion, Seed Inspection, Nursery Inspection, Fruit and Vegetable Quality Control, Egg Quality Control, Apiary Inspection and Crop Statistics.

Agreement #10-0535 has been reviewed by County Counsel and is approved as to form.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The recommended Board action will support the program services for the entire 2010-2011 Fiscal Year.

Respectfully submitted,
